Presenting

OUR STORY

The Startup Story...

India has one of the world's highest rates of mental illness.
According to stats, one out of every five Indians have active mental health issues. As we speak, about
5.5 crore people are suffering from depression & anxiety. But these are merely the people who have acknowledged to it. The exact volume is yet unknown.

Mental Health

You do not have to struggle in silence!

Mental health conditions can have a substantial effect on all areas of life, such as school or work performance, relationships with family & friends and one's ability to participate in the community. Two of the most common mental health conditions, depression and anxiety, cost the global economy US\$ 1 trillion a year.
